

# EZLinks Tee Sheet Software Feature List

Available in Tee Sheet Version 7.3 and Higher

---

## Overview

This is an overview of new features and functions available with your EZLinks Tee Sheet software. For assistance, contact EZLinks at 1.888.99.LINKS (54657).

## Rapid Reserve

This optional reservation method streamlines the process to a single screen, and provides the ability to quickly define the players within a group.

It now allows users to select the type of reservation they want to book. (In previous versions, the default reservation-type for the selected tee time slot was automatically used).

**Rapid Reserve**

Enter player names:

10:36 AM Player 1: Guest Player 2: Guest Player 3: Guest

Reservation type: Basic

Fee type: ABC Hotel, Basic, Basic + Options, Complimentary, Events, **Members**, Packager / Third Party, Quick / Walkup

Notes: [Empty text area]

Do not type sensitive information (i.e. Credit Card #) into the Notes field.

Payment: Number: [Invalid] Save on file? [ ] Type: AMEX, Discover, MasterCard, Visa

## WebMarket: Multi-Channel Display Screen

This new tee time display option consolidates multiple WebMarket channels into one front-end presentation. Each channel, and its respective pricing, is shown as a separate column.

One channel from the group is deemed the “master”, and dictates the visual appearance of the page, such as the colors and graphics.

Once a golfer selects a tee time and begins a reservation, the policies, rules, membership requirements, and payment procedures for that channel are followed.

This is a strategic way to show golfers the price they could pay if they qualified for a different channel, such as a “Players Card” or “Member” rate.

8:36 am			<input type="radio"/> \$38.50 Save \$16.50	<input type="radio"/> \$0.00

## Lottery: Recurring Requests

Users of the EZLinks Lottery System can now create Recurring Requests for their members. This is useful at facilities where members play regularly, and don't want the burden of submitting separate requests for every lottery. Now, the system can do it on their behalf, with their preferred tee time parameters.

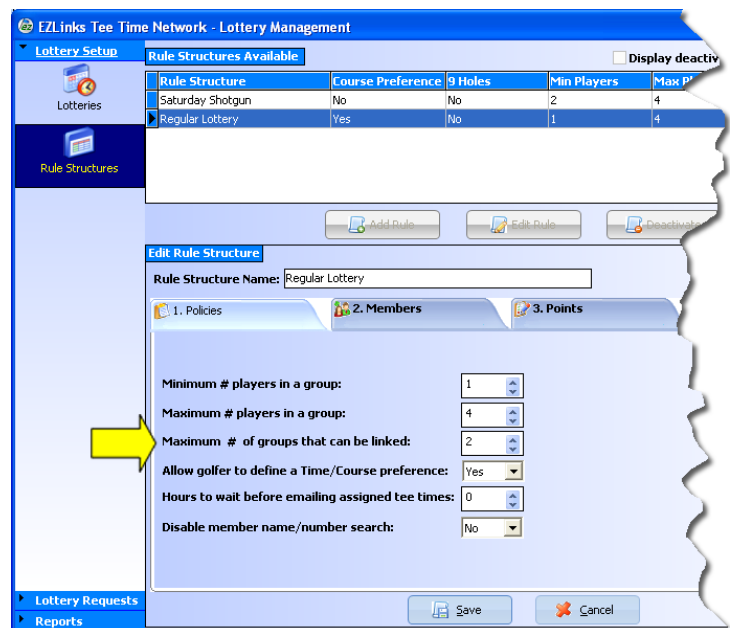

- A selectable calendar allows staff to define dates to include and omit from the members' request.
- Different recurring requests can be created for a member for different types of lotteries.
- If a recurring request cannot be submitted (i.e. due to an expired membership), the members on the request will be automatically notified by email.
- Printable reports provide a summary of recurring requests.

## Lottery: Linked Groups

The Lottery System now permits up to 8 groups (i.e. foursomes) to be linked together on a request. This is an increase from the previous limit of 4 groups.

This setting can be changed in:  
*Maintenance > Lottery > Rule Structures > Policies*

---

## Itinerary/Package Numbers

When the Itinerary/Packaging feature was used during a reservation, the ID number is now included in the Information Center for a selected tee time.

<b>Golfer:</b> HUFFMAN, BRIAN	7:40 a	West, Ronald/\$61.00 -- 208659476	West, Ronald/
<b>ConfirmID:</b> 208659476 <b>Fee:</b> pubcrt18	7:50 a		
<b>Package #:</b> 77-108352	8:00 a	HUFFMAN, BRIAN/\$61.00 -- 208659476	HUFFMAN, BR
<b>Reservation Type:</b> CorpPkg	8:10 a	Blackerby, David/\$39.95 -- 236243188	Blackerby, Da
<b>Booking Group:</b> RTJ Reservation Center	8:20 a		
<b>Date/Time Booked:</b> 5/13/09 03:13 pm			

---

## Other Adjustments in Version 7.3

- **Cancellation Emails...** The default delivery setting can now be changed.
- **“Reservation Tracking”...** Now available to everyone, not just administrative users.
- **“Channel View” Tab...** Can now be activated/hidden based on user group.
- **“Existing Tee Time Checker”...** Option to scan all available courses, instead of just one facility.
- **Password Expiration Alert...** A message is shown at login if a user’s password will expire within 5 days.
- **Turn Time Blocks...** A new configuration option controls when to remove blocks for unsold tee times.
- **Golfer Search Filters...** The advanced filtering is now available for Member# and Last4Phone searches.
- **WebMarket Screens...** Option to hide the greens fee price and/or the “Savings” amount.
- **Software Updates...** Improvements to better-support Windows 7 security during ETN.exe upgrades.

- **XTREAM API Enhancement...** A new data-feed subscription for integrators can notify them when a check-in occurs.
- **Reservation Center Integration...** The EZLinks phone system is now integrated to the reservation software, and auto-loads a golf course’s tee time grid when an inbound phone call for that course arrives at an agent’s station.

## Report Changes

- **“Revenue & Rounds with Weather”**... Updated to include Precipitation and Golf Index.
- **“Rounds Report: #21”** ... A summary of reservations played by Day of Week.
- **“Rounds Report: #26 / #26b”**... Allows to select the Reservation Type(s) to analyze
- **“Rounds Report: #33b”** ... A summary of reservations played by Fee Type.
- **“Internet Rounds Played”** ... A summary of Web-based reservations.

---

## Bug Fixes

- **Reservation Process:**
  - Fixed a bug in the Check-In Screen that displayed member rates for golfers with expired memberships.
- **Turn-Time Automation:**
  - Fixed a bug related to the auto-resizing of tee time grid columns.
  - Fixed a bug that prevented Copy/Paste within a 9-Hole time slot.
  - Fixed a bug to standardize how names are being appended to Turn Time blocks.
- **Fee List (at bottom of the main screen):**
  - Fixed a bug where the list of fees did not match the selected reservation type.
  - Fixed a bug related to fees not being shown if the cursor is in a timeslot equal to the fee’s Start Time.
- **Web:**
  - Fixed a bug related to the golfer names that are initially shown if the “View Tee Sheet” tab is used.
- **Reports:**
  - Fixed a bug related to the Itinerary/Package# report.
- **Lottery:**
  - Fixed a bug related to point sort orders of High-to-Low.
  - Fixed a bug related to golfers who have multiple Membership Types that use the same Member #.

- **Other:**
    - Fixed a bug related to color-coding a range of tee time slots while in Multi-Course View.
    - Fixed a bug in Rapid Reserve related to looking-up golfers in the database.
    - Fixed a bug that did not permit Member # lookups of 1-2 digits.
    - Fixed a bug related to the default, automatic naming scheme applied to Tee Template schedules.
    - Fixed a bug related to the behavior of the “Country” field in the Golfer Information profile form.
    - Made an adjustment that will improve the upgrade process from Version 7.3 to 7.4 for EZPOS users.
